The Cassidy Sale

The Commissioner's sale of the Cassidy real estate took place in this city Saturday at which time several thousand dollars worth of property was disposed of.

The handsome residence in this city was bid in by J. W. Wilson, of Beattyville, one of the heirs, at \$4,400. The flour mill property was purchased by Dr. Wm. C. Martin, of this city, at \$2,650. The barber shop property was sold to H. G. Crabtree for \$475. The vacant lots along the railroad facing the school property were sold to various persons at from \$55 to \$175. Those who secured one or more of these lots are: Joe Mountz, O. L. Daniel, D. B. Hurt, Charlie Wright Edmon Burgher, R. W. Garrett. A small tract of land in this county and some land and oil leases in Wolfe county were also sold.

A large crowd attended the sale and the bidding was spirited and liberal. Judge Daniel was the auctioneer.

Bridge Work Progressing

The work on the concrete bridge at Roundtree's place is nearing completion. Both abutments are in, and the form and steel reinforcements were ready for the concrete Tuesday night, and had not the rain interfered, Mr. Phelps would have gotten the floor completed Thursday—today. For some time this bridge has been a bad gap in the road, and now that it will certainly be finished in a few days, it is very gratifying to the traveling public.

Narrow Escape

It was a very narrow escape for Buster, the little six-year old son of Mr. W. F. Barnett last Friday when the child tried to crawl upon his father's moving wagon on his farm two miles south of town. The little boy fell under the wagon which passed over his head and one leg. While badly bruised up, the child is not dangerously hurt, but will be very sore for a few days. The wagon had a load on it and that it did not break through his skull is a wonder.

More Shale Land Sold

John Willie Patton has sold the shale portion of his small tract of land at Waltersville for \$1,000, which aside from its shale value is a big price. One of the firms contemplating putting a plant here became the purchaser. The shale fellows keep on buying land which evidently means nothing but business later. We are still waiting, boosting and hoping.

BIRTHS.

Sunday, December 12th, to Mr. and Mrs. Raymond Knight, of this city, an infant which lived but few hours. Burial in the local cemetery.

Sunday December 19th, to Mr. and Mrs. Chas. Stewart, a son.

As we come to this joyous festive season, let us fix our eyes on that Divine Person, who, by His miraculous entrance into the human race, has made this Christmas day possible. Hundreds of years before He came, the Prophet had announced the very place of His birth. And, when the fullness of time was come, by a strange sequence of events, His parents made the tedious journey to Bethlehem. And there the Virgin "brought forth her first-born Son and laid Him in a Manger." When this child grew up, He spent His life among the people, healing their sicknesses, binding up their broken hearts, scattering gladness wherever He went. And as a recompense, cruel hands nailed Him to a Roman cross, and those whom He had never wronged "pierced His hands and feet." "But He was wounded for our transgressions and by His stripes we are healed." So His death was not in vain. Nay, through death, He destroyed him that had the power of death. Therefore, as we are seeking to make others happy by our gifts, let us remember how happy we have been made by "God's unspeakable gift." —Self.

Farmers Advancing

The Times job office has recently turned out some printed stationery for the Maple Grove Stock Farm, Stanton, and the Crescent Ridge Stock Farm, Clay City. Mr. A. J. Martin is proprietor of the Maple Grove and Mr. Chas. Welch is proprietor of the Crescent Ridge. Both are breeders of thoroughbred cattle, hogs and chickens. The Maple Grove has Herefords, while the Crescent Ridge breed Holstein cattle. Both the farms breed Poland China hogs and Rhode Island Red chickens.

This is a forward step and other farmers of the county should follow. The first step is to get some printed letter heads and envelopes. This advertises and fixes a name for your farm if you desire.

More consideration is given to any business letter where it is written on printed stationery than where it is on plain. Nothing pays better than a small investment in printed stationery when starting any business.

Fair Weather

The first of the week witnessed a very dry period for winter. High winds the last of the week dried up the muddy roads wonderfully. In places they became dusty. Automobilists started up blasts from their warning signals, and it looked almost like spring. The rain yesterday morning, however, blasted all hopes for good Christmas roads.

Garrett Back from Capital

Hon. H. Green Garrett, of this city, chairman of the State Highway Commission, returned Friday night from Washington, where he attended a meeting of the American Highway Association, at which every State was represented at the meeting. Mr. Garrett was made a member of the executive committee of the national association. This committee had a very satisfactory meeting with the roads committee of the House of Representatives, at which all of the 21 members of the House Roads Committee were present.

The Kentucky State Highway Commission is planning to raise funds for the roads of this State as follows: \$3,000,000 on coal tax; \$2,000,000 on automobile tax; \$300,000 on gasoline tax; \$1,000,000 property tax of 5 cents on the \$100; \$2,000,000 on oil tax; \$2,000,000 federal aid, making a total per annum of \$10,300,000.—Winchester Sun.

Christmas Greetings

The Times extends its best and sincerest greetings to its readers, one and all. And may the New year bring peace, prosperity and happiness after having spent a joyous, and devoted Christmas, with true thoughts of the One who justly merits its keeping.

Moving Barber Shop

A. P. Johnson is moving his barber shop from the Cassidy building, sold at Commissioner's sale last week to H. G. Crabtree, to the Bob Stone building, formerly occupied by The Times.

Master Lenwood Jackson returned to his home in Louisville Monday after a visit with his grandparents, Mr. and Mrs. James Welch.

Mr. and Mrs. Pete Burris, Mrs. Annie Norton and son, J. C. Norton, left Monday for a visit with friends in Mt. Sterling and Lexington.

Differences

When the American Woolen company closed its mills, to keep up prices that wasn't a strike, but good business, regrettable but necessary.

When farmers propose to hold their grain for fair prices, that is a strike, un-American.

When the State of New York starts out to build two state grain elevators to aid the grain dealers and exporters in that state, that's fine and just co-operation.

When North Dakota would build a terminal elevator for farmers, that's revolutionary, paternalistic, class legislation.

Funny how things are fine and dandy until they get mixed up with farmers.

The Youth's Companion

Home Calendar for 1921

The Publishers of The Youth's Companion will, as always at this season, present to every subscriber whose subscription (\$2.50) is paid for 1921 a Calendar for the new year. The tablets are printed in red and olive green, and besides giving the days of the current month in bold legible type, give the Calendar of the preceding and succeeding month in smaller type in the margin. It is a rich and practical piece of work.

Notice to Teachers

Teachers may enter the Eastern Kentucky State Normal January 4, 1921 and make full credits in five weeks by taking two lessons a day in the same subject. Ask your county superintendent for full particulars and for an appointment.

Joe Clark and Winfred Davis were Lexington visitors Monday.

Sherman Wetherholt is quite sick at this writing with pneumonia.

Mesdames Addie Nelson and Mahala Gravett were Xmas shopping in Lexington Monday.

Mr. James Curry, of Milton, spent the week-end here with his brother-in-law, John Burton.

B. F. Curtis, who has been employed in the oil field the past ten months, has returned here to reside on his farm.

Mrs. Mariah Rose, of Ravenna, arrived here Saturday to spend a few days with the Chas. Welch family, which is closely related to her.

The "Jenny Wrens" are chirping through the air and piping on window sills here, saying the wedding bells will start real soon. After the ceremonies they will depart for the Southland.

The home of Mr. and Mrs. Leonard Patrick has been brightened by the advance agent of the stork, which left a fine little girl baby. The little lady has been christened Miss Henrietta Daniel.

Most of the porkers have been

butchered in and near this "burg," with splendid luck to all in not losing any meat. So Hardwick's creek is living fat and fine with "ground hog gravy" running down somebody's chin."

Thomson Mack, of Lebanon, Tenn., has been here for some time collecting for the Wrought Iron Stove Company, of St. Louis. Mr. Mack said he had much trouble in rounding the company's creditors up, as many of them had moved to other communities and some few to other states.

Right now is a good time before you select something less appreciative for your friend or relative, to order the good old Times sent them that will convey all news items which are right, true and interesting. E. F. Harris or The Times office force will take your subscription, and remember its only \$1 00 a year.

The public school, in co-operation with the patrons of this district, will give an entertainment and Christmas tree at the church on Saturday, the 25th, (Xmas day), beginning about 10 a. m. Everybody is invited to come and hear the exercises, also to bring presents to be placed on the tree for their friends and relatives. Old Santa Claus will be on hand with his "double barreled butcher knives."

Charlie Welch, after selecting a name for his fine stock farm, has placed an order for a good supply of stationery with the Times office. This farm will be known hereafter as the Crescent Ridge Stock Farm. We presume there will be many other farmers in this section who will soon follow Mr. Welch's example in giving their farm a name and instead of strangers enquiring for the person they will ask to be directed to the farm on which the person resides. By doing these things it puts everything on a business basis.

J. F. Smith departed this life on Wednesday, Dec. 15th, after a short illness of pneumonia. The wife of the deceased preceded him just one week and two days ago. Mr. Smith was 69 years of age. He leaves two daughters, Mrs. Ida Wetherholt and Mrs. Corda Powell, of this place, and a brother, W. T. Smith, of Montgomery county to mourn his loss. To those we say go to the One that has the power to give and take, where they will find sweet rest to their souls.

After a short funeral service the remains were interred at the Christian church cemetery by the side of his wife.

SPOUT SPRING

School closed Friday after a most successful term. It is with regret that we note the retirement of Prof. Margison from the profession of school teacher, and we feel sure that the operation of the new law, which will exclude many such excellent teachers as he, will never provide a better teacher.

"Uncle" Taulbee F. VanCleve quietly passed away Saturday, December 18th, at the home of his son, the Rev. Carter VanCleve. Funeral services were conducted Sunday by Revs. Sherman Robbins, of Clay City, and B. S. Burgher of this place. Burial in Salem churchyard.

"Uncle" T. F., as he was familiarly called, was a native of Tennessee where he was born in 1833; was therefore 87 years old. His wife preceded him to the beyond four years ago. He has since lived with his son, the Rev. M. C. VanCleve.

Deceased is survived by eight children, all but one residing out of the state of Kentucky. But one of them was able to get to the funeral, Grant VanCleve, of Middletown, Ohio. Other children are residing in Wisconsin, Idaho, Washington and California.

Bald Rock.

Grant See, of South Fork, was here last Saturday on business.

Not much news this week as the writer was away Saturday and Sunday on a pleasant trip.

The writer made a trip to N. da Saturday and down to Stanton Saturday evening and attended the meeting of the American Region Guide Post No. 127, and is well pleased with the outlook of the Post, and what it stands for and will do for the ex-service men. We hope to see every ex-service man in the county become a member at once. At the next meeting the writer is expecting to take with him at least one-half dozen former service men.

What Are Your Chances Of Success?

Do You Step Out with Snap and Vigor? Are You Able to Get Things Done?

DON'T STAND IN YOUR OWN WAY

People with Thin, Weak Blood Have a Hard Time of it. They Should Take Pepto-Mangan

Look at the facts of your health. So much depends on having the red blood. If you stand up in front of your work with half-starved blood in your system you are standing in your own way. You are blocking your own progress.

Thin blood makes you dull. It makes you pale. You take no enjoyment out of your work. It is only half as good as it should be.

You can remedy that condition so easily. Begin taking that fine tonic, Pepto-Mangan, today and keep it up for awhile. Your blood will become nourished. Pepto-Mangan, makes red blood corpuscles. You will get energy and strong power of resistance. Instead of standing in your own way, you will push yourself ahead because of greater vitality.

But be sure you get the genuine Pepto-Mangan. It is put up in both liquid and tablet form. Ask for "Gude's" and be sure that the name is on the package. The tablets or the liquid have the same ingredients value.—Advertisement.

Farm Notes

ESSENTIALS IN BUTCHERING
Success in the curing of pork which has been butchered on the farm depends largely upon whether or not the meat has been thoroughly cooled out before the salt is applied. This suggestion together with several others is contained in hints which have just been issued by Prof. E. J. Walford, of the Animal Husbandry Department, College of Agriculture, University of Kentucky for farmers who will do their own butchering during the coming winter months. According to Prof. Walford, the old method of shooting or knocking the hog in the head has been found to be a poor one since it does not allow the animal to bleed out thoroughly and as a result the quality of meat is affected. If the animal is killed by inserting a knife about one inch in front of the "Adams Apple" and sticking toward the tail far enough to cut the two arter-

ies that cross in the neck much more satisfactory results can be obtained. In this way the heart will be allowed to pump the blood from the body. Many farmers have abandoned the old method of sticking the animal in the heart because by this method the blood cannot be pumped from the body. If the hog is hung up before the sticking, the blood will drain out of the body much more satisfactory.

HOUSED HENS LAY MORE EGGS

According to poultrymen in the Animal Husbandry Department of the College of Agriculture, University of Kentucky, the hen that is properly housed during the coming winter months will be more hable to lay more eggs than the hen that is poorly housed. A good house for the hens need not be warm but should be free from drafts, have plenty of ventilation and sunlight and be dry. A satisfactory floor for the house may be made of concrete, but it should be built off the ground six or eight inches and have cinders or gravel beneath it to prevent dampness and cold. A good board floor should be used in preference to one on dirt.

SAUSAGE RECIPE

The following ingredients for every six pounds of meat make a satisfactory method of making sausage, according to the College of Agriculture, University of Kentucky. One and one-half ounces of fine salt, one and one-half ounces of finely ground black pepper and one half ounce or less of sage to suit the taste. Ginger may be substituted for the sage if desired.
